

YOUR BUILDING SYSTEMS PARTNER FOR ALABAMA AND THE SOUTHEAST

 <p>Solution Partner Building Technologies</p>	<ul style="list-style-type: none"> • DESIGO OPTIC and DESIGO CC • Open Building Automation Software enables integrators to work with multiple system protocols from a single, easy-to-use front end. Upgrade your building to the latest IoT technology and system protocols and improve your building efficiency • Best-in-class user interface from a global leader in building automation • Non-proprietary, completely expandable to include HVAC, lighting, security, life safety • DESIGO DXR BACnet and PXC modular controllers for high-performing building operation 	<ul style="list-style-type: none"> • Non-proprietary, completely expandable to include HVAC, lighting, security, life safety • Deliver comfort, safety and energy efficiency with a global leader • Optimize efficiency and comfort with a completely open building management system that makes integration easier and faster • Actuators and valves • Variable frequency drives • Power meters
 <p>Solution Partner Building Technologies</p>	<ul style="list-style-type: none"> • GAMMA/KNX Lighting Controls • Integrated Lighting Controls • Improve budgets and occupant comfort • Seamlessly integrate with Siemens BAS or other open system platforms • Distributed control architecture • Daylight Harvesting • Occupancy Control • Task Tuning • Scheduling • Blind and Shade Control 	<ul style="list-style-type: none"> • Ballast-Level Control • Energy Star reports that lighting alone accounts for about 35% of a commercial building's electrical use, making it one of the most significant costs for a facility • Studies supported by the U.S. Dept. of Energy reveal lighting controls can deliver 20%-60% energy savings compared to stand alone systems
	<ul style="list-style-type: none"> • VARIABLE REFRIGERANT PACKAGED HEAT PUMP (VRP) VRF performance and single package simplicity at a significantly lower price • Hospitality, K-12, Multifamily, Senior Living • .7,1T,2T,3T sizes available • Precision inverter technology • Best in Class cooling • True humidity control; optional HGRH coil • Conditioned fresh air • Superior, efficient heating • Better aesthetics, no units on outside/roof • Huge savings on installation costs-less piping, electrical, roof structure 	<ul style="list-style-type: none"> • FRESHFAIRE PTAC UNIT Fully integrated make-up air with ASHRAE 62.1 compliance • BREEZE Universal Heat Pump • Ductless Split Systems • Residential Ducted • Commercial Ducted • Packaged Terminal • Vertical Packaged AC Units • Room Air Products • Hazardous Environment • Water Heaters
	<ul style="list-style-type: none"> • Unified Lighting Control • Maximize Energy Savings • One Network • One User Interface • One Point of Accountability • Wide Open Integration • Web Based Single User Interface • Profiles For Multiple Users 	<ul style="list-style-type: none"> • Remote Access Via IP • Reduce Redundant Hardware • Leverages Existing Network Infrastructure • Multi-Protocol Support • Share and Trend All Sensor Information
	<ul style="list-style-type: none"> • Industry Leading Products • Electric Duct, Cabinet, Unit Heaters • Function Critical Equipment 	<ul style="list-style-type: none"> • Explosion Proof Heaters • Controls

Some of our manufacturers are market location specific. Please contact us via email at service@ccsi-se.com or visit our website at www.ccsi-se.com. We appreciate the opportunity to be of service.

Office: 710 Maple Street Birmingham, AL 35210

Office: 205.956.9220
